EXPERT TECHNIQUES

Originally from Brazil, Renata França has transformed the world of massage by reinventing traditional lymphatic techniques. Her innovative approach combines visible effectiveness with deep well-being, through three signature protocols:

Lymphatic Drainage – A revitalized version of the classic technique, delivering fast and impressive results: a feeling of lightness, reduced swelling, and a visibly slimmer silhouette.

Remodelling – A sculpting massage that redefines body contours. Inspired by well-known anti-cellulite methods, it tones and enhances slimming effects.

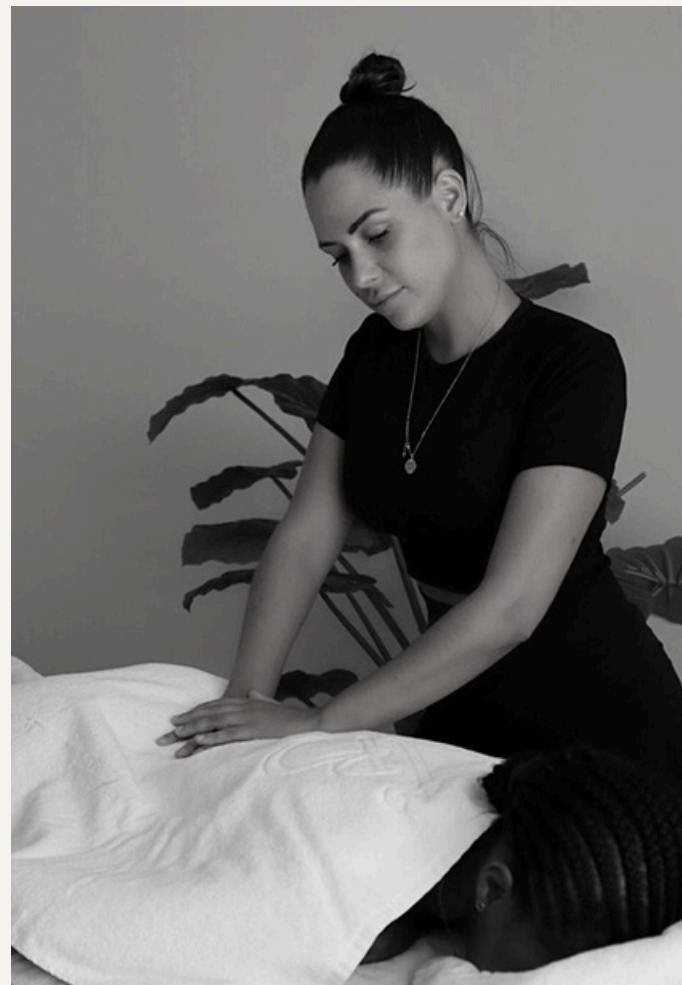

Miracle Touch – A custom blend of the two previous treatments, designed to boost circulation, smooth tissue, and deliver an immediate lifting effect.

EMMANUELLE LAURENT

Passionate about the world of wellness and attentive to every detail, Emmanuelle honed her craft in the most prestigious hotels on the French Riviera. For over ten years, she practiced at the Majestic in Cannes and the Eden Roc in Antibes, serving a discerning international clientele.

Trained in the Renata França method directly in Brazil, she has developed a unique expertise that combines precision of touch with an exceptional eye for detail.

After working independently as a therapist at the Hôtel Martinez in Cannes, she has now settled in Dakar to offer her exclusive treatments at Terrou-Bi.
